with Clear Crushed Glass Fuel Effect

innovation and inspiration...

Radiance 195R Inset Edge

enchanting flame effects

The very latest addition to grace the Gazco Electric range, the Radiance series brings together stylish design and advanced flame technology to create an electric fire with truly mesmerising effects.

The stunning LED flame patterns give you the choice of two distinctive colours, so you can create the perfect mood for every occasion. Selecting the deep amber glow offers a warm and inviting atmosphere of a traditional fire, or alternatively the blue flame effect provides an eye-catching contemporary look. Each alluring flame picture features high and low brightness settings, letting you move between an ambient glow and radiant focal point. The flame pattern can also be operated without the heat, so you can enjoy the relaxing display even during the warmer summer months.

wall mounted & inset options

The Radiance is offered as either a wall mounted or inset fire to suit your individual taste and the requirements of your room. Both versions are available in four different sizes, and can be further customised with a range of frame options. Whichever Radiance you choose, these designer fires will provide a striking centrepiece for your home.

All Radiance fires benefit from variable heat output between 1.0 or 2.0kW and feature additional thermostatic control, or alternatively you can even enjoy the effect without the heat at all.

fabulous frames and fuel effects

There are a variety of beautiful frames and styling options available across both wall mounted and inset versions of the Radiance, making it easy to find the right look for your décor.

The wall mounted Radiance incorporates Gazco's state-of-the-art Chromalight™ LED backlighting

on both Glass and Steel frames, effortlessly setting the atmosphere with its mood enhancing illumination. Colour psychology, the study of combining colours for effect, stems from the principle that through exposure to certain lighting you can reach greater levels of relaxation, focus, or even revitalise your mind and body. The 12 colour chromatherapy lighting system lets you either bask in the serenity of a soothing, gradually changing colour spectrum or using the handset, immerse yourself in your favourite aura - at the touch of a button.

The Radiance Inset is presented in a frameless Edge design; finishing flush to the wall, it creates a timeless, hole-in-the-wall centrepiece. For a bolder style choice, the Verve XS Frame adds a presence that can be appreciated from all angles thanks to its curving 3D form. The Verve XS is available in sophisticated Graphite, Ivory or Metallic Red colours, each leaving a distinctive lasting impression.

All models in the Radiance series come with a customisable fuel bed that provides a focal point even when the fire is off. The standard White and Clear Stone bed can optionally be upgraded to clear Crushed Glass or Glass Beads in either black or clear, to further enhance the flames.

creative control

Both wall mounted and inset Radiance fires come with a thermostatic remote control. The sleek handset gives you full control over the fire's host of features including heat output as well as flame effect brightness levels and colour, making it easy to create the perfect ambience from the comfort of your sofa. The remote control also lets you access the Radiance's convenient timer-off feature - perfect for gently falling asleep to the relaxing flames and comforting warmth.

complete peace of mind

the gazco pedigree

When you choose Gazco, quality and technology are assured. From contemporary hang on the wall fires to traditional stoves, Gazco are committed to creating the ultimate in flame effect fires. Our research and development laboratories are amongst the most advanced in the industry, ensuring that the very latest innovations are incorporated into our products.

Gazco is part of the Stovax Group who offer a prestigious product range which includes everything from traditional to the ultra-contemporary in a wide array of styles and sizes.

Whether your choice is solid fuel, gas, or electric you can be sure to find a stove or fireplace from our range to add the perfect warmth and character to your home. Full details of the Stovax Group's range of products can be found at www.stovax.com.

Gazco is an ISO9001 accredited company. Our rigorous quality control system ensures that all our appliances comply with British Safety Standards as well as stringent European regulations. All fires in this brochure are CE marked. This means they have been independently tested to exacting European standards.

warranty information

Your Gazco retailer will provide you with a Two Year Extended Warranty for your new electric fire, providing it is registered with Gazco. Please note this warranty excludes certain consumable parts. Fires purchased outside of Gazco's Expert Retailer Network will carry a standard One Year Warranty. Full warranty details, terms and conditions are available at www.gazco.com.

expert retailer network

We take great care to ensure that our fires are designed, tested and manufactured to the highest possible quality and safety standards. We are just as concerned to make certain that they are sold and installed correctly so that you will enjoy years of pleasure from your purchase.

Accordingly, you will find our products are only available from experienced, independent retailers who will be happy to show you a selection of models locally in their showrooms, often fully operational. These independent retailers will discuss your individual requirements covering both technical issues and design, to ensure that you select the most appropriate product for your home. They will also be able to advise on, or assist with, the installation process as well as help provide any after-sales support and servicing your appliance may require in the future.

Whilst we encourage our retailers to promote fireplace products and their outlets via the internet, we do not believe suitable levels of customer care and satisfaction can be obtained from purchasing the product only online and we would strongly recommend that you consider this when undertaking your research and making a purchasing decision. Furthermore, please be aware that we do not offer technical support (beyond our statutory responsibilities) to products bought via nationwide online sales, where this support would normally be offered by one of our qualified, independent retailers.

In addition, Gazco fires purchased from within our Expert Retailer Network will have the additional benefit of an extended warranty period, subject to terms and conditions. Full details can be found at www.gazco.com.

radiance video

choosing your radiance fire...

Radiance 80W Steel in Graphite

Radiance Inset 105R Edge with Clear Glass Beads Fuel Effect

wall mounted fires08 - 13

With its easy hang-on-the-wall installation, the wall mounted Radiance lets you add an instant focal point to almost any room with no building work required. Needing only a standard three pin plug socket, you can easily add luxury to the lounge or ambience to the bedroom, in fact the Radiance can be installed in virtually any room in the home!

The additional semi-recess kit, which is also available, gives you the option of an even slimmer profile if desired by allowing you to partially set your Radiance into the wall.

inset fires14 - 19

For under-stated style, the Radiance Inset's frameless design creates a strikingly contemporary and integrated look. Fitting flush to the wall, the inset version ensures a streamlined, seamless appearance for the ultimate minimalist design statement.

The optional Verve XS curved frame can be added for extra presence and aesthetic appeal.

key features

Chromalight LED Backlight System (Wall mounted fires)

Amber & Blue Flame Effect

Frame available in Graphite, Metallic Red & Ivory

Thermostatic Remote Control

High Efficiency

radiance size options

The Radiance wall mounted fire is available in a range of sizes to suit almost any interior. With their simple hang-on-the-wall installation and selection of stylish frames, these cutting edge fires let you easily add a stylish focal-point to any room. Offering up to 2.0kW heat output they can instantly create a warm and inviting atmosphere.

The Radiance can be fitted almost anywhere you wish to create a warming visual or to add some localised heat. With no building work required, these fires are great not just for lounges, but for studies, kitchens, conservatories and even bedrooms - bringing style and sophistication to virtually any location.

The larger Radiance 150W and 190W fires effortlessly add presence to open-plan living areas, hallways and other more spacious settings where you wish to make a design statement as well as add a convenient heat source.

Wall mounted Radiance fires are available with an optional semi-recess kit, allowing you to reduce the fires already slim depth by almost two thirds when fitted into a pre-constructed 90mm wall cavity.

radiance inset size options

Radiance Inset fires are offered in a choice of four sizes, in either hole-in-the-wall or framed options to suit your personal tastes. Instantly catching the eye, these breathtaking designer fires will add a stylish warmth wherever they are installed.

From the compact Radiance Inset 85R to the expansive 195R, there will be a size to fit your setting whether you're looking to add style to your study or luxury to your lounge. The Inset can even be fitted into a wallpaper surround, allowing papering to the fire's edge for seamless integration with your interior styling.

All four sizes feature the same variable heat output between 1.0kW and 2.0kW and benefit from convenient thermostatic control.
